CONTENTS

No. 1, December 25, 1952

PAGE

Musha, R. Influence of Autonomic Nervous Centers on Liver Glyconeogenesis ... 1

Yamasaki, M. and **Oikawa, T.** On the Z-Granules in the Granulocyte Series, a Preliminary Report ... 8

Takaoka, Y., Yamaguchi, T. and **Kosaka, K.** Relation of the Parotid Gland to Serum Protein and Malnutrition ... 9

Yamasaki, M. and **Chiba, F.** On the Chemical Properties of the Z-Granules. I. Ribonuclease Test ... 16

Takahashi, S. and **Obara, J.** Rotatory Crossgraphy (Rotatory Cross Section Radiography) of the Neck (Studies on Rotatography. 8th Report) ... 17

Masamune, H., Tokura, M. and **Satoh, R.** Chemistry and Biology of Lipids. XIII. The Group Lipoid of Pig Pancreas ... 21

Masamune, H., Tsuiki, S. and **Satoh, R.** Biochemical Studies on Carbohydrates. CLIX. High-molecular Components of Non-lipid Nature of Human Pancreas. First Paper: Carbohydrates ... 31

Orihara, O. Comparative Observation of the Action Potential of Autonomic Nerve with E.E.G. ... 43

Orihara, O. Experimental Study of Action Potential of Thyroid Gland 57

Motokawa, K. Properties of Retinal Induction in the Human Eye ... 69

Yamagata, S. and **Chida, T.** Studies on Blood Glycogen. The 3rd Report. The Blood Glycogen Content in Digestive Disease Patients ... 79

Yamagata, S., Seino, S. and **Nakao, T.** Studies on Blood and Plasma Catalase. The 1st Report. A New Micromethod of Estimation of Blood and Plasma Catalase ... 85

Yamagata, S. and **Nakao, T.** Studies on Blood and Plasma Catalase. The 2nd Report. The Blood Catalase Content in Digestive Disease Patients ... 93

Nos. 2-3, February 25, 1953

Yamagata, S. and **Seino, S.** Studies on Blood and Plasma Catalase. The 3rd Report: The Blood and Plasma Catalase Content in Blood Diseases ... 101

Yamasaki, M. On the Chemical Properties of the Z-Granules. II. Hydrolysis Test ... 108

Oikawa, T. Cone- and Rod-Processes in Peripheral Color Vision ... 109

PAGE

Yamasaki, M. On the Z-Substance in Cell. Preliminary Report ... 118

Masuda, H. Studies on the Temperature of the Gastrointestinal Tract. Fourth Report: Influence of Ingestion of Water on the Intragastric Temperature 119

Chiba, F. Histochemical Demonstration of the Acid Phosphatase in Erythrocytes 128

Masuda, H., Ohara, M. and **Katsura, S.** Studies on the Temperature of the Gastrointestinal Tract. Fifth Report: Response of the Intragastric Temperature to Various Drugs (Part I)... 129

Yamasaki, M. and **Oikawa, T.** On the Chemical Properties of the Z-Granules. III. Test by Pyronin-Methylgreen Staining 136

Masuda, H., Ohara, M. and **Katsura, S.** Studies on the Temperature of the Gastrointestinal Tract. Sixth Report: Response of the Intragastric Temperature to Various Drugs (Part II) 137

Iijima, S. and **Kanazawa, T.** The Relationship between Blue Nevus and Vitiligo 144

Yabuki, R. Histological Study on Distribution of Aortic Nerve in Human Embryo... 145

Ohgaki, M. Innervation especially Sensory Innervation of Facies Inferior Linguae in Human Adult 157

Okano, S. Innervation especially Sensory Innervation of Dog Tongue 169

Wako, H. Isolation and Identification of Methyl Glyoxal (Pyruvaldehyde or Pyruvic Aldehyde) from Human Milk, Parts I & II; 264th Report of the Peroxidase Reaction (211th Human Milk Study) ... 181

Wako, H. The Isolation and Identification of Methyl Glyoxal (Pyruvaldehyde or Pyruvic Aldehyde) from Human Milk. Part III. Identification of acetaldehyde and methyl glyoxal from human milk by paper partition chromatography. 265th Report of the Peroxidase Reaction (212th Human Milk Study) 191

Arakawa, T. and **Wada, S.** Contribution to Pathogenesis of Transient Infantile Hemiplegia probably due to Izumi Fever, with Special Reference to "The Cross Section Pneumoencephalograms"... ... 199

Yoshida, H. Electrophoretic Analysis of Serum Protein of Children with or without Nutritional Dystrophy. Studies on the Nutrition of Children in the Hirosaki Area (14th Report) 205

Yoshida, H. and **Sato, Y.** Electrophoresis of Sera, Liver Biopsy Finding and Sato's Bromsulfalein Test in Children with Negative Response to the Ordinary Bromsulfalein Test. Studies on the Nutrition of Children in the Hirosaki Area (15th Report) 211

Asano, T. Studies on Inhibiting Effect of Aminopterin and other Folic Acid Antagonist and Folic Acid upon the Yoshida Sarcoma... ... 221

PAGE

Asano, T. Effect of Cacodylic Acid upon the Yoshida Sarcoma ... 227

Yamagata, S. and **Seino, S.** Studies on Blood and Plasma Catalase. The 4th Report: The Blood and Plasma Catalase Content in Various Experimental Anemias 231

Yamagata, S. and **Seino, S.** Studies on Blood and Plasma Catalase. The 5th Report: Influence of the Spleen and Reticulo-Endothelial System upon the Blood and Plasma Catalase Content 239

Yamagata, S. and **Seino, S.** Studies on Blood and Plasma Catalase. The 6th Report: Influence of the Liver upon the Blood and Plasma Catalase Content 249

Kikegawa, E. The Calomel-Solid Food-Hot Compress Therapy of Bacillary Dysentery 259

Ono, I. Studies on Myoglobinuria 273

Motokawa, K. and **Ebe, M.** On the Effect of Alternating Currents upon the Spectral Sensitivity of the Human Retina 283

Kikuchi, M. Growth Ability of Many Kinds of Actinomyces on the Streptomycin-containing Agar, with Reference to the Changes after Transferring on this Agar (Studies on the Antibiotic Substances from Actinomyces, 8th Report) 293

Vol. 57, No. 4, April 25, 1953

Takazawa, A., Kimura, K. and **Omachi, K.** Specific Lytic Reaction of Bovine Erythrocytes Sensitized with Tuberculin, and Its Diagnostic Value upon Tuberculosis 299

Masamune, H. Interconvérsion of Blood Group Lipoids A and B *in vitro* and N-Glycoside Linkage in Group Substances A and B in General 310

Aono, G. A Hemolytic Reaction of Erythrocytes Sensitized with Tuberculin and Components Extracted from Leprosy Nodules 311

Omachi, K. Experimental Tuberculous Infection in Mice 317

Iwama, K. and **Abe, M.** Conditioned Galvanic Skin Reflex and Electroencephalogram 327

Konishi, R. On the ELMoNogram of Cholecystopathia, Preliminary Report 337

Tokuoka, Y. Experimental Studies on Treatment for Liver Disturbances 343

Okinaka, S., Yoshikawa, M., Mozai, T. and **Toyota, M.** Studies on the Pathogenesis of Hepatocerebral Disease. I Report. The Determination of Copper in Clinical Materials 349

Yamamoto, S. and **Komatsu, M.** Studies on Brain Stem. IV. Centering on Facial Nucleus of Anencephalus 359

PAGE

Higashi, O. A Counting Chamber Peroxidase Reaction Method for Erythrocytes; A New Technique for Histochemical Examination of Peroxidase Activity of Erythrocytes 367

Ohgaki, M. and **Hotta, K.** On Sensory Terminations in Oral Cavity Base in Man 375

Okano, S. On Sensory Terminations in Dorsum Manus in Man ... 379

Uyeda, I. On the Hyperglycemia in Man, Produced by Duodenal Introduction of Glucose 383

Yoshida, Y. Studies on Melanin. XI. Malignant Melanoma in Japan 385

Saito, T. Insulin Sensitivity in Diabetes Mellitus 393

Saito, T. The Effect of Dietary Treatment on Insulin Sensitivity in Diabetes Mellitus 403

INDEX TO VOL. 57 OF THE TOHOKU JOURNAL OF EXPERIMENTAL MEDICINE

Subjects

Acetaldehyde: Identification of — from human milk 183, 191
Actinomyces: — on streptomycin containing agar 293
Action potential: — — of autonomic nerve 43
— — of thyroid gland 57
Alternating currents: — — on spectral sensitivity of retina 285
Aminopterin: — upon the Yoshida sarcoma 221
Anemia(s): Blood and plasma catalase in experimental — 231
Anencephalus: Centering on facial nucleus of — 359
Aortic nerve: Distribution of — — in human embryo 145
Autonomic nerve(s): Action potential of — — and EEG 43
Autonomic nervous center(s): — — — and liver glyconeogenesis 1
Blood disease(s): Blood and plasma catalase in — — 101
Cacodylic acid: — — upon the Yoshida sarcoma 227
Calomel: — therapy of bacillary dysentery 259
Catalase: Micro method for blood and plasma — 85
Blood — and digestive diseases..... 93
Blood and plasma — in blood diseases 101
Blood and plasma — in experimental anemias 231
Influence of spleen and reticulo-endothelial system upon blood and plasma — 239
Influence of liver upon blood and plasma — 249
Cholecystopathia: ELMoNogram of — 337
Color vision: Cone- and rod-processes in peripheral — — 109
Cone- and rod-processes: — — — — in peripheral color vision..... 109
Copper: — determination in clinical materials 349
Diabetes: Dietary treatment and insulin sensitivity in — mellitus..... 393, 403
Digestive disease(s): Blood glycogen and — — 79
Blood catalase and — — 93
Drug(s): Response of intragastric temperature to various — 129, 137
Duodenal introduction: — — of sugar and hyperglycemia 383
Dysentery: Calomel therapy of bacillary — 259
EEG: Condtioned galvanic skin reflex and — 327
Electrophoresis: — of sera of children with nutritional dystrophy... 205
— of sera, liver biopsy and liver test... 211
ELMoNogram: — of cholecystopathia 337
Embryo: Distribution of aortic nerve in human — 145
Erythrocytes: Histochemistry of acid phosphatase in — 128
Counting chamber peroxidase method for — 367
Facial nucleus: Centering on — — of anencephalus 359
Folic acid antagonist(s): — — — upon the Yoshida sarcoma 221
Galvanic skin reflex: Conditioned — — — and EEG 327
Glycogen: Blood — and digestive diseases 79
Glyconeogenesis: Autonomic nervous centers and liver — 1
Granulocytes: Hierto undescribed granules in — 8
Group A lipoid: Chemistry of — —

— of pig pancreas 21
Group lipoids A and B: Interconversion *in vitro* of — — — — — 310
Group substance(s): High-molecular components of non-lipid nature of human pancreas 31
Group substances A and B: N-glycoside linkage in — — — — — in general 310
Hand(s): Sensory terminations in human dorsum manus 379
Hemiplegia: Transient infantile — due to Izumi fever 199
Hemolytic reaction: Specific — — in tuberculosis 299
Specific — — for leprosy 311
Hepato-cerebral disease(s): — - — — and copper determination 349
Hyperglycemia: — produced by duodenal introduction of glucose..... 383
Innervation: — of facies inferior linguae 157
Sensory — of dog tongue 169
Insulin: Depression quotient for — sensitivity 393
— sensitivity in diabetes mellitus 393, 403
Dietary treatment on — sensitivity... 403
Izumi fever: Transient infantile hemiplegia due to — —..... 199
Leprosy: Specific hemolytic reaction for — 311
Liver: Electrophoresis of sera and — test and — biopsy 211
Experimental — disturbances and treatment 343
Influence of — upon blood and plasma 249
Malnutrition: — and parotid gland 9
Melanoma: Malignant — in Japan... 385
Malignant — and racial difference... 385
Methyl glyoxal: Identification of — — from human milk 181, 191
Micro method: — — for blood and plasma catalase 85
Motion and spasm: — — — upon myoglobinuria 273
Mouse (Mice): — as experimental animal for tuberculosis 317
Mouth: Sensory terminations in human oral cavity base 375
Myoglobinuria: Motion and spasm upon — 273
Neck: Rotatory crossgraphy of — ... 17
Nevus: Relationship between blue — and vitiligo 144
Nutritional dystrophy: Electrophoresis of sera of children with — — 205
Pancreas: Group A lipoid of pig — 21
High-molecular components of non-lipid nature of human — 31
Parotid gland: Relation of — — to serum protein and malnutrition..... 9
Peroxidase: Counting chamber — method for erythrocytes 367
Phosphatase: Histochemistry of acid — in erythrocytes 128
Pneumoencephalogram(s): Transient hemiplegia in Izumi fever and " cross section —" 199
Pyruvic acid: — — from human milk 189, 196
Pyruvic aldehyde or **Pyruvaldehyde:** *s.* Methyl glyoxal 181, 191
Reticulo-endothelial system: Influence of —- — — upon blood and plasma catalase 239
Retina: Alternating currents on spectral sensitivity of —..... 285
Retinal induction: Properties of — — 69
Rotatography: Rotatory cross section radiography of neck 17
Rotatory crossgraphy: — — of neck 17
Sarcoma: Aminopterin and folic acid antagonists upon the Yoshida — 221
Cacodylic acid upon the Yoshida — 227
Sensory termination(s): — — in human oral cavity base 375
— — in human dorsum manus ... 379
Serum protein: — — , parotid gland and malnutrition 9
Spleen: Influence of — upon blood and plasma catalase 239
Streptomycin: Actinomyces on — containing agar 293
Temperature: Gastrointestinal — 119, 129, 137

Thyroid gland: Action potential of — — 57
Tomato juice: — — and experimental liver disturbances 343
Tongue: Innervation of facies inferior linguae 157
Sensory innervation of dog —..... 169
Tuberculosis, active: Diagnostic value of specific hemolytic reaction for — — 299
Tuberculous infection: Experimental — — in mice 317
Visual contrast: Mechanism of — — 69
Water ingestion: Influence of — — on intragastric temperature 119
Z-granules: Chemical properties of — - — 8, 16, 108, 118, 136
— - — in granulocyte series 8
Ribonuclease test of — - — 16
Hydrolysis test of — - — 108
Test of pyronin-methylgreen staining 136
Z-substance: — - — in cell 118
